

FOR TEAMS THAT NEED PRIVATE, GOVERNED AI

Bring AI into your team securely.

Give your team one secure place to use AI, share approved knowledge, manage prompts and personas, and control model access without scattering work across public tools.

WHY TEAMS CHOOSE MSTY STUDIO

Secure Collaboration by Default

Give teams a sanctioned AI workspace for sensitive work, reducing scattered usage across public tools and personal accounts.

Consistent Workflows

Standardize prompts, personas, and knowledge stacks so teams can reuse what works and produce more consistent results.

Governance That Scales

Manage users, model access, permissions, and audit activity with controls built for IT, security, and operations teams.

HOW MSTY STUDIO HELPS TEAMS WORK WITH AI SAFELY

Knowledge Stacks

Ground AI responses in approved internal documents, policies, and team knowledge without repeatedly uploading files into public AI tools.

Role-Based Personas

Create approved AI assistants for specific roles, teams, or workflows so employees start with the right context and instructions every time.

Model Whitelisting & Control

Control which models and providers teams can use, with permissions aligned to role, team, or policy. Local or cloud, your choice.

"A powerful way to unlock employee efficiency while staying model-agnostic."

"Msty's been a powerful tool for us to unlock employee efficiency while remaining model-agnostic. The combination of a great UI and powerful, accessible features like prompt libraries, knowledge files, and local LLMs has been huge for our employees."

Eytan Buchman
